AIMS, FOCUS, AND SCOPE

Kritika Kultura is an international peer-reviewed electronic journal of language and literary/cultural studies which addresses issues relevant to the 21st century, including language, literature and cultural policy, cultural politics of representation, the political economy of language, literature and culture, pedagogy, language teaching and learning, critical citizenship, the production of cultural texts, audience reception, systems of representation, effects of texts on concrete readers and audiences, the history and dynamics of canon formation, gender and sexuality, ethnicity, diaspora, nationalism and nationhood, national liberation movements, identity politics, feminism, women's liberation movements, and postcolonialism.

Kritika Kultura is interested in publishing a broad and international range of critical, scholarly articles on language, literary and cultural studies that appeal to academic researchers in government and private agencies and educational institutions, as well as members of the public who are concerned with exploring and examining contemporary issues in the complex nexus interconnecting language, literature, culture, and society.

Kritika Kultura seeks to promote innovative scholarship that challenges traditional canons and established perspectives and enhance work that bridges disciplinary research around the issues enumerated above, especially in the promising lines of work in Philippine, Asian, Southeast Asian, and Filipino-American studies.
